# ABOUT US

**Makka Mine CC**  
USE MONEY WITH CONFIDENCE

MAKKA MINE LIMITED is a team of people focused on the results of their work. Under the leadership of Alexander James, we create an asset management company whose synonyms are: reliability, guarantee and security of the funds entrusted to us. We follow proven methods that were developed long before the launch of the online platform. Our company was registered on 22nd April 2022 and from the very first days of operation, in consultation with capital markets experts, we have developed methods that allow our investors to achieve great passive income.

In addition to the management board, our company employs or cooperates on a daily basis with several experts who have shown above-average results in asset management in recent years. We work on the most professional trading platforms and use professional equipment. Makka mine is a team of people responsible for security, effective multiplication of accumulated funds, full diversification of activities.

## 1 VISION

Our vision is to replace traditional payment system into digital payments through MAKKAMINE & identify the best sources to promote metal mining worldwide.

## 2 MISSION

To create a marketplace with global reach to provide a most secure and trusted platform.

## 3 GOAL

- To bring the various professional under one umbrella for effective and faster communications
- Intelligently connecting the best of the best professional to the consumer for an incredible outcome

# COMPANY INFO

MAKKAMINE Were professional who were always in the global financial service industries they have followed the very many facets And intricate functions within the eve-evolving industries. Over the last decade the changes have been enormous and overwhelming both in terms of technology and also technology integration, the situation has been fluid.

# WHAT ARE PRECIOUS METALS

Periodic system - Precious metals and current yearly production:

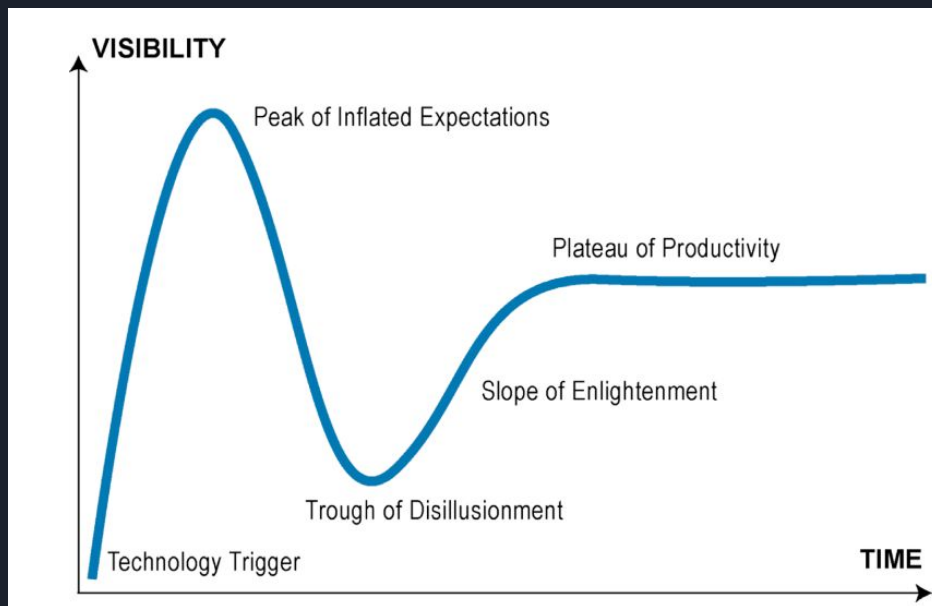

Current yearly production of precious metals in kilograms:

- Ag – Silver 23.000.000
- Au – Gold 2.700.000
- Pa – Palladium 201.000
- Pt – Platinum 183.000
- Ru – Ruthenium 30.000
- Rh – Rhodium 22.000
- Ir – Iridium 4.000
- Os – Osmium 120

**Makka Mine CC**  
USE MONEY WITH CONFIDENCE

# “HYPE”

## – COMMON DENOMINATOR OF NEW PRECIOUS METALS

- ❖ Let's begin with the old story of supply and demand. This common economic model is to be perfectly seen during the introduction of the “new” precious metals like Platinum, Rhodium, Iridium and Ruthenium.
- ❖ Our case will be a lot more dramatic through the scarcity of Osmium. Platinum, Rhodium, Iridium and Ruthenium can be still mined. Osmium will be off the raw material market.

Once a product cannot be produced or mined any longer, the supply (in this case “the investors”) will be the technology trigger to skyrocket the price.

# PRECIOUS METALS AS AN INVESTMENT

**Makka Mine CC**  
USE MONEY WITH CONFIDENCE

Precious metals are unique assets: highly liquid, yet scarce; they have emotional, cultural and financial value. Investors range from individuals to pension funds and sovereign wealth funds, and are located in both developed and emerging markets.

## Our main precious metal: **GOLD**

"The modern gold market is the picture of diversity and growth. Since the early 1970s, the volume of gold produced each year has tripled, the amount of gold purchased annually has quadrupled, and gold markets have flourished around the world."

### Key facts investors should know:

- ❖ Gold is a major asset driven by many factors, not just investment demand.
- ❖ Gold is one of the most effective diversifiers.
- ❖ Gold provides competitive returns compared to other major financial assets.
